EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- In line 3 of claim 1, "with wound" has been changed to --wound--.
- In line 7 of page 4 of the specification, "41" has been changed to --40--.

2. The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of claims 1-15 is the inclusion of the limitations of a remover solution receptacle built in the remover body so that the outlet of the remover solution receptacle is directed to the opening of the remover body and a head engaged with the opening of the remover body to open and close the remover solution receptacle. For example, Carson, Jr. et al. (US 4,112,536) discloses: a remover body with an opening; a fabric wound within the remover body so that it is exposed through the opening; and a remover solution receptacle built in the remover body. However, Carson, Jr. et al. does not disclose that the remover solution receptacle is built in the remover body so that the outlet of the remover solution receptacle is directed to the opening of the remover body and does not disclose a head engaged with the opening of the remover body to open and close the remover solution receptacle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
